Drink... Delicious! Refreshing!

At Soda Fountains 5 Cents Carbonated in Bottles 5 Cents

## Maysville Telephone Co. is a Maysville Institution

It was designed and financed and built to serve a local need. It has been in operation many years and has always kept up-to-date. It has been recently rebuilt—inside and outside—and is in better position to serve its patrons than Company's in cities many times larger than Maysville. Our equipment is new and we connect with both of the Long-distance Companies. It is managed and operated by local people whose object is to give the best possible service at rates as low as is consistent with a fair return on the investment. It deserves your patronage—it deserves your support.

Your neighbor has a telephone. Have you?

Rates according to class of service to meet every need.

Call Contract Department now.

## LEGISLATION

To Aid Railroads—To Be Suggested Before Congressional Body—Leading Executives Are To Be Heard First—Senator Newlands Tells Purpose of Hearings.

Washington, November 22—What is the matter with the railroads, and what kind of legislation Congress might enact to better conditions will be pictured to the Joint Congressional Committee investigating transportation problems, beginning Thursday, by the executives of some of the greatest systems in the country.

The investigating committee held its first session today, heard an opening statement by its Chairman, Senator Newlands, and received notice of appearance from nearly 100 public utility companies, State Railroad Commissions, commercial and industrial organizations and shippers and individuals.

The committee decided to hear the railroads first in the belief that their executives are better prepared to state their case without further delay. The Railway Executives' Advisory Committee, composed of more than a dozen heads of important systems, was advised, and it is expected that most of its members will testify before the railroad side is completely told.

### To Meet Each Week Day

The committee decided to hold hearings each week day from 10 a. m. to 1:30 p. m. only to give the official reporters time to keep the record up to date for the committee and for witnesses. No decision was reached as to what witnesses will be called when the railroads conclude. Representatives of the American Telephone and Telegraph Company, the Western Union Telegraph Company and several of the big express companies were present and will be heard before the committee reports.

The railroad phase of the investigation is expected to take most of the committee's time, but under the resolution which created it its investigations are to extend to all such public utilities.

Mr. Newlands explained that the inquiry would cover a wide field. He said:

"It will relate to every phase of the transportation question the rail carriers, the river carriers and the ocean carriers, and the perfection of a harmonious system of transportation embracing rail, river and ocean carriers that will meet the demands of interstate as well as foreign commerce, and it will also be applied to telegraph and telephone lines, express companies and other public utilities.

Other Problems To Face  
"It will embrace not only the subject of Government control and regulation

of these utilities, but also the wisdom and the feasibility of Government ownership, and the comparative worth and efficiency of Government regulation and control, as compared with Government ownership and operation.

"It will not be possible for us to come to a speedy conclusion regarding all questions, but that conclusion will be more quickly arrived at if we have the sympathetic aid of practical men who for years have been conversant with the practical side of the transportation question of the economists and publicists of railway executives and workers of commercial bodies, farmers and manufacturers and shippers generally."

Referring to Government ownership, Senator Newlands said:

"It is a question that must be faced. Other nations, far advanced in civilization, have adopted the system. Recently, under the stress of war, at least all European Governments have taken over the railroads. Whether that will be a permanent taking over or only a temporary one, it demonstrates that in conditions of great crisis when autocratic powers must be given to the Government, all intelligent Governments drift toward absolute and complete operation of the roads as the only solution of the question.

"Should Watch Europe"

"If we pursue the exercise and the study of Government regulation wisely, persistently and energetically, we may create such a system of regulation as will meet every requirement both in time of peace and of war and in exigency or crisis. But it seems to be a wise thing for the Government of the United States to ascertain now the history of the countries that have adopted Government ownership and operation of railroads, and to watch the experiences of the European countries in this great war in this regard.

"In this connection will come the question of the method of taking over the railroads. Shall it be accomplished by an actual valuation of the railroads and a condemnation of them, or shall they be taken over by the easier method of taking over the stocks and the bonds at their market value, thus at one step having the National Government take the position of stockholder and security holder in these great corporations?"

Strikes as a means of settling labor disputes Senator Newlands characterized as "the most barbarous and brutal of processes."

"The question is," he added, "whether a nation pretending to some degree of civilization which has eliminated the doctrine of force from application to controversies between man and man, and which furnishes judicial tribunals for the settlement of those controversies, and which is now and has been for years endeavoring internationally to secure a system under which the nations of the earth will create similar tribunals for the adjustment of international disputes without resort to force—whether a civilized nation can be content to perpetuate the existing condition of things."

### GERMANS ARE UNCIVIL TO U. S. CONSUL AND WIFE

Amsterdam, November 21 (via The Hague to London, November 22).—Dominic L. Murphy, American Consul General at Sofia, Bulgarian, arrived here today through Germany from Stockholm, where he went recently with his wife to visit their daughter. Despite the fact that Mr. Murphy had a special pass from the German legation at The Hague, it is said, the German authorities of Warnemünde treated the couple with incivility on their way to Stockholm and again on their return. The second incident occurred, it is said, notwithstanding the intervention of Dr. Maurice P. Egan, the American Minister to Denmark, and also the German Minister, who had assured Mr. Murphy that the treatment given him and his wife would not occur again.

Mr. Murphy will leave for Sofia Wednesday.

### NEW STATE TO BE MADE OF LITHUANIA BY GERMANY, WITH PRINCE EITEL FRIEDERICK AS RULER, IT IS RUMORED

Paris, November 22—Germany is about to follow up her declaration of Polish independence with a similar announcement regarding Lithuania, according to dispatches from Switzerland to the morning papers.

The dispatches say that the new state probably will receive Prince Eitel Friederick, second son of the Emperor, as its sovereign, and will form a state of the German Empire with a similar status to that of Bavaria of Saxony.

As in the case of Poland, the dispatches add, the first step in the creation of the new state will be the formation of a Lithuanian army to fight under Field Marshal von Hindenburg. It is estimated that Lithuanian could raise 150,000 men.

Battles in human blood between white corpuscles and diseased germs have been photographed with the motion-picture camera by two French scientists.

### Marinello Face Powder Is Different

Forms a real protection—actually clings to the skin and prevents the disastrous effects that otherwise follow exposure. It is delightfully different, as a single trial will prove. If you have never tested it, send Ten Cents and we will send you a miniature box of powder, some Motor Cream, Tooth Paste, Hand Lotion, Fragrant Powder and valuable Beauty Guide. Free demonstration.

## Children Thrive on Grape-Nuts

This delicious food is made from whole wheat and malted barley—scientifically baked many hours to a high degree of digestibility.

It provides, in concentrated form, the elements of nourishment so necessary for building active, growing bodies and brains, and the kiddies really like Grape-Nuts—they need no urging.

Every table should have its daily ration of Grape-Nuts.
